Room Number: 120

The School of Social and Behavioral Sciences offers graduate programs in criminology and psychology. In addition, graduate courses in history and political science are offered as needed for concentrations in the Master of Science in Education degree offered by the College of Education and Human Performance.

Counseling Psychology, M.A./Psychology, M.A.

The graduate program in Psychology offers two psychology degrees:

- Master of Arts in Counseling Psychology
- Master of Arts in Psychology

Both graduate psychology degrees offer thesis and non-thesis options. In order to obtain their graduate degree, students must obtain an overall average of 3.00 or greater in their graduate classes. Students are allowed to have up to two courses with C's. The remaining courses must be a combination of A's and B's. Students can retake a course in order to obtain a better grade.

Students applying to the M.A. in Counseling Psychology must have at least 18 semester hours of undergraduate psychology. These 18 semester hours must include: (i) 3 semester hours in statistics, (ii) 3 semester hours in experimental psychology/research methods, (iii) 3 semester hours in abnormal psychology, (iv) 3 semester hours in personality theory, and (v) 3 semester hours in developmental psychology (lifespan, child, adolescent, or adult development). The other 3 semester hours can be any other upper-division psychology course.

Students applying to the M.A. Psychology must have at least 18 semester hours of undergraduate psychology. These 18 semester hours must include (i) 3 semester hours in statistics, (ii) 3 semester hours in experimental psychology/research methods, and the remaining 12 semester hours may be from the following psychology courses: cognitive psychology, learning and memory, social psychology, biopsychology, physiological psychology, sensation and perception, personality, abnormal, developmental psychology (lifespan, child, adolescent, or adult development), history and systems of psychology.

To apply for admission to either of the graduate programs, applicants must submit official undergraduate transcripts.

Applicants to either of the psychology graduate degree programs must be approved by the Psychology Graduate Admissions Review committee before formal acceptance into the program. Contact the Admissions Committee chair for application details and deadlines. In general, applications are accepted during the Spring semester for admission in the Fall.

The Master of Arts degree in Counseling Psychology is designed for students desiring to provide applied mental health services; it prepares students to sit for the state Licensed Professional Counselor exam (i.e., the LPC exam). The LPC requirements include 60 hours of courses, as required by the Texas Board of Licensed Professional Counselor Examiners. Students graduating with an M.A. in Counseling Psychology find employment in a variety of settings including community and state mental health agencies, university wellness centers, substance abuse treatment centers, and private practice. Students also often pursue teaching and research careers at community colleges and universities. Graduates also obtain doctoral degrees in Clinical or Counseling Psychology.

The Master of Arts in Psychology thesis option is designed for students desiring to pursue doctoral studies or teaching and research careers. Graduates from our program obtain doctoral degrees in Social Psychology, Developmental Education, Audiology, and Neuroscience Psychology.

Both the counseling and Psychology (non-clinical) master's degrees require students to pass a comprehensive exam in order to graduate.

Criminology, M.S.

The Master of Science in Criminology program is designed to provide students with an understanding of the fundamentals of criminology as well as an in-depth knowledge of one or more subfields within the discipline. The program prepares students for employment in a wide variety of settings across government, business, and non-profit sectors. The program is also designed to allow graduates to pursue further advanced study in criminology, criminal justice, justice studies, political science, law, sociology, or other closely related social scientific disciplines. The program offers thesis, project, and courses-only degree options. The requirements vary for each of the different degree options.

Criminology (CRIM)

CRIM 5300 Seminar in Criminology 3 SCH (3-0)

Analysis of criminal behavior with a focus on contemporary issues relating to the causes, consequences, and social control of crime and deviance.

CRIM 5303 Advanced Research Methods 3 SCH (3-0)

General research methods and techniques. Behavioral Science research design and related statistical analysis techniques. Prerequisites: SOCI 3381 and SOCI 4382 or PSYC 3387, or their equivalent. (Credit may not be obtained in both CRIM 5303 and SOCI 5303.)

CRIM 5304 Sem Juvenile Delinquency 3 SCH (3-0)

A study of deviant behavior by legal minors in contemporary society with a focus on the factors and conditions contributing to delinquency, and the control and treatment of offenders and programs for prevention.

CRIM 5306 Thesis 3 SCH (3)

This course is for thesis option students. The course requires 6 hours, the first 3 hours consisting of the completion of a thesis proposal and the last 3 hours consisting of the defense of the thesis. Completion of the thesis proposal is a prerequisite for enrollment in the last 3 hours of thesis.

CRIM 5310 Data Analysis in Social Resrch 3 SCH (3-0)

An intermediate level statistics course on linear modeling, with an emphasis on statistical data analysis: data management, data manipulation, and introduction to linear modeling (ANOVA and classical linear regression). Prerequisite: SOCI 3381 or its equivalent. (Credit may not be obtained in more than one of CRIM 5310, PSYC 5310, and SOCI 5310.)

CRIM 5315 Selected Topics in Criminology 3 SCH (3-0)

Literature and research in areas of criminology not otherwise treated in available courses. May be repeated twice for credit with change in topic.

CRIM 5320 Police and Society 3 SCH (3-0)

A treatment of the nature, organization, function, problems, and components of police agencies in modern society.

CRIM 5325 Sem in Criminological Theory 3 SCH (3-0)

A comprehensive presentation and discussion of classic and contemporary theoretical paradigms of crime and delinquency, and empirical research support for them.

CRIM 5328 Studies in White-Collar Crime 3 SCH (3-0)

A study of white-collar crime with a focus on the definition and understanding of while-collar crime, the factors and conditions contributing to white-collar crime, and the control and treatment of offenders for prevention.

CRIM 5350 Murder and Crimes of Violence 3 SCH (3-0)

Addresses the study of murder and other violent crimes as forms of deviant behavior. Content covers the definition, frequency, types and societal reaction to these crimes. The social-psychological factors related to typical, mass, serial, and habitual violent offenders will be presented.

CRIM 5352 Studies in Correction 3 SCH (3-0)

Advanced treatment of the philosophies, theories, social-historical context, facilities and problems associated with contemporary corrections in the United States.

CRIM 5365 Documentation 3 SCH (3-0)

This course is to acquaint criminology students with basic knowledge and understanding of the techniques of Documentation. This course also considers social events, circumstances, and situations that affect human behavior and application of social theory to documented situations in society. Blending Sociology, Criminology, and Social Psychology for use in documents in various individual settings for the purposes of developing Identity resolutions to individual and institutional needs. The course also considers Human Resource issues and document needs in several social structural areas such as corporate, governmental, immigration, and institutional settings.

CRIM 5370 Advanced Violence 3 SCH (3-0)

In-depth study of direct and structural violence including statutory and common law definitions as well as models of direct and indirect causation and prevention.

History (HIST)

HIST 5312 Topics in European History 3 SCH (0-3)

A seminar in European history with emphasis upon the development of a research project or projects. May be repeated for credit when the topic changes.

HIST 5320 Topics in Non Western Hist 3 SCH (3-0)

A seminar in Non-Western history with emphasis upon the development of a research project or projects. May be repeated for credit when the topic changes.

HIST 5330 Topics in American History 3 SCH (0-3)

A seminar in American history; study of research methods, followed by the development of one or more research projects by each student and papers or reports on the projects. May be repeated for credit when the topic changes.

HIST 5346 Topics in Texas History 3 SCH (3-0)

Selected topics in the history of Texas, 1519 to the present. Emphasis is placed upon the examination and evaluation of primary and secondary source material. May be repeated once for credit when the topic changes.

HIST 5365 Advanced Topics in History 1-3 SCH (1-3)

Intensive investigation into selected topics of concern to advanced students of history and political science. May be repeated for credit when the topic changes. (May be taken either as HIST 5365 or as POLS 5300, but credit may be obtained for both only if the topics of study differ.)

HIST 5370 Advance Problems in History 1-3 SCH (1-3)

Independent research on selected problems of concern to advanced students of history and political science. May be repeated once for credit when the topic changes.

HIST 6311 History of the Mex American 3 SCH (0-3)

A study of the role of the Mexican American in history from the first Spanish settlers to the present. Taught in English. Prerequisite: 12 semester hours of history and/or political science.

Political Science (POLS)

POLS 5300 Advanced Topics in Political Science 1-3 SCH (1-3)

Intensive investigation in selected topics of concern to advanced students of political science and history. May be repeated for credit when the topic changes. (May be taken either as POLS 5300 or as HIST 5365, but credit may be obtained for both only if the topics of study differ.)

POLS 5302 Government and Politics of TX 3 SCH (3-0)

A survey of the structures, functions, and processes of the Texas political system and its position in the United States.

POLS 5310 Topics in American Politics 3 SCH (3-0)

Selected topics in American national government, state and local government, political behavior, urban politics, public law and judicial process. May be repeated for credit when the topic changes.

POLS 5315 The President and Congress 3 SCH (3-0)

Structure, functions and policy roles of the national executive and legislative branches of government.

POLS 5318 Voting Behavior and Public Opinion 3 SCH (3-0)

The relation of public opinion and voting behavior to democratic government; techniques employed in analyzing political attitudes and voting behavior. Prerequisite: 6 semester hours of Political Science.

POLS 5331 Constitutional Law I 3 SCH (3-0)

A survey of American constitutional law, using leading cases, both historic and contemporary, of the Supreme Court of the United States. Establishment of the federal political system for which the Constitution provided and the judicial allocations of political and economic power within that system.

POLS 5332 Constitutional Law II 3 SCH (3-0)

A survey of American constitutional law using leading cases, both historic and contemporary, of the Supreme Court of the United States. Matters of rights and liberties, their recognition and definition, policies of rights developed by the Supreme Court of the United States.

POLS 5333 American Justice Process 3 SCH (3-0)

The federal Judicial System in terms of structure, function and process with stress on court interaction at both intracourt and intersystem levels.

POLS 5340 Topics in Comparative and International Politics 3 SCH (3-0)

Selected topics in comparative politics, international relations, foreign policy, international organization and international law. May be repeated for credit when topic changes.

POLS 5380 Advanced Problems in Political Science 1-3 SCH (1-3)

Independent research in selected topics of concern to advanced students of political science and history. May be repeated once for credit when the topic changes.

Psychology (PSYC)

PSYC 5302 Indiv Psychological Tests 3 SCH (3-0)

Major individual psychological tests. Each student will choose one particular scale, master its techniques, administer it to a specific number of subjects, score and interpret the results. Prerequisites: PSYC 4308 and PSYC 3381 or equivalent.

PSYC 5304 Counseling and Psychotherapy 3 SCH (3-0)

A survey of the major theories of counseling and psychotherapy. Prerequisites: 6 semester hours of advanced psychology or the equivalent.

PSYC 5305 Graduate Research Project 3 SCH (3)

Designed for project option students and requires completion of research project. Prerequisite: departmental approval. May be repeated for a maximum of 6 semester hours. Prerequisites: PSYC 5310 and PSYC 5381.

PSYC 5306 Thesis 3 SCH (3)

Designed for thesis option students. The course requires completion of thesis research. Prerequisite: departmental approval. May be repeated for maximum of 6 semester hours. Prerequisites: PSYC 5310 and PSYC 5381.

PSYC 5308 Intro to Counseling Psych 3 SCH (3-0)

Fundamentals of professional counseling and psychotherapy. Definitions and the history of counseling and psychotherapy, settings for professional practice, professional development, contemporary issues and ethics, and models of counseling and psychotherapy and their associated techniques.

PSYC 5309 Cognitive Psychology 3 SCH (3-0)

Analysis of theoretical, empirical, methodological and applied issues in such areas as attention, pattern recognition, memory, language and problem solving. The relationship between cognition and such individual-difference variables as age, intelligence and expertise will be covered.

PSYC 5310 Data Analys in Social Research 3 SCH (3-0)

An intermediate level statistics course on linear modeling, with an emphasis on statistical data analysis; data management, data manipulation and introduction to linear modeling (ANOVA and classical linear regression). Prerequisite: PSYC 3381 or its equivalent. (Credit may not be obtained in both PSYC 5310 and SOCI 5310.)

PSYC 5311 Addictions Counseling 3 SCH (3-0)

Introduction to current research on psychological, social, legal and situational factors involved in substance abuse and addiction. Attention to treatment procedures and treatment facilities. Addiction, defined broadly, includes eating and gambling disorders. Prerequisites: PSYC 5304 and PSYC 5308.

PSYC 5313 Physiological Psychology 3 SCH (3-0)

An intensive study of the biological mechanisms underlying behavior and applications of biological psychology to human problems. This course covers biological foundations, evolution and development of the nervous system, perception and action, the regulation of behavior, emotions and mental disorders and cognitive neuroscience.

PSYC 5315 Practicum in Counseling 3 SCH (2-10-0)

Supervised practice in counseling and therapy with individual clients: 150 hours of practicum experience in a professional setting per semester plus two hours of individual or group supervision per week. May be repeated for credit. Prerequisites: PSYC 5304, PSYC 5308, PSYC 5325 and PSYC 5333.

PSYC 5316 Couples Counseling 3 SCH (3-0)

Systems theory therapies and practices relative to assessment, research, and treatment of couples. Explores cognitive, affective, interactional, and systemic theories of human behavior and change as related to couples. Prerequisites: PSYC 5304 and PSYC 5308.

PSYC 5317 Multicultural Theory & Counsel 3 SCH (3-0)

Introduction to research, theories, and paradigms of counseling with diverse populations; focus on diversity variables such as race/ethnicity, culture, age, religion/spiritual orientation, sexual orientation, disability, class status, and gender.

PSYC 5319 Life Span Devel Theory andTech 3 SCH (3-0)

A study of psychological, social, cultural, physical and emotional factors affecting personality development and behavior throughout the life span. Emphasis on theoretical perspectives on development.

PSYC 5325 Psychopathology 3 SCH (3)

A survey of the research, theories, assessment and treatment models of psychopathology.

PSYC 5326 Advanced Abnormal Psychology 3 SCH (3-0)

Criteria of psychiatric diagnosis, use of the DSM Multi-Axial system, theories of psychopathology, treatment planning and intervention, and introduction to psychopharmacological medications. Prerequisites include PSYC 5304 and PSYC 5325.

PSYC 5331 Lifestyles and Career Devel 3 SCH (3-0)

A review of psychological research, theory and methodologies in the world of work, including the nature of organizations and the worker, group processes and training, communication, attitudes, motivation and leadership.

PSYC 5333 Ethics and Legal issues 3 SCH (3-0)

An intensive study of ethical and legal issues for students with a background in counseling or related areas. Focuses on basic issues, values clarification, foundations of ethical positions and interaction with the legal profession.

PSYC 5334 Ethics II 3 SCH (3-0)

Advanced training regarding professional issues and ethics in counseling. Attention to record management and business law, as they relate to professional counselor practice. Focus on current professional-organization ethical codes.

PSYC 5336 Clinical Assessment 3 SCH (0-3)

The assessment of abnormal behavior with emphasis on symptomatic behavior, clinical diagnosis and writing assessments and planning treatment.

PSYC 5344 Group Therapy 3 SCH (3-0)

A study of the theoretical concepts of types of groups, stages of group development and leadership skills.

PSYC 5352 Advanced Social Psychology 3 SCH (3-0)

Advanced study of how peoples' thoughts, feelings and behaviors are influenced by actual, imagined or implied other people. Topics include the psychological study of conformity, attitudes, aggression, altruism, conflict and cooperation.

PSYC 5381 Behavioral Science Research 3 SCH (0-3)

Behavioral science research design, methodology, analysis and interpretation of results. Under tutorial guidance, students conduct, analyze and report on an empirical study of their own design and choice of topic. Prerequisites: PSYC 5310, PSYC 3381 or equivalent and either PSYC 3387 or SOCI 4382.

Sociology (SOCI)

SOCI 5301 Sem in Sociological Theory **3 SCH (0-3)**

Analysis of generalizations derived by sociology concerning how human beings live and interact.

SOCI 5302 Sem in Social Organization **3 SCH (0-3)**

The dynamics and structure of social organization with emphasis on large-scale systems. Critical evaluation of current research and contemporary theories of social organization.

SOCI 5303 Advanced Research Methods **3 SCH (3-0)**

General research methods and techniques. Behavioral science research design and related statistical analysis techniques. Prerequisite: SOCI 3381 and SOCI 4382 or PSYC 3387 or their equivalent.

SOCI 5306 Thesis **3 SCH (3)**

Designed for thesis option students. The course requires completion of thesis research. Prerequisite: departmental approval. May be repeated for maximum of 6 semester hours.

SOCI 5309 Selected Topics in Sociol **3 SCH (3-0)**

Literature and research in areas of sociology not otherwise treated in depth in available courses. May be repeated for credit with change in topic. Prerequisite: courses appropriate to the selected topic.

SOCI 5310 Data Analysis in Soci Research **3 SCH (3-0)**

An intermediate level statistics course on linear modeling, with an emphasis on statistical data analysis; data management, data manipulation and introduction to linear modeling (ANOVA and classical linear regression). Prerequisite: SOCI 3381 or its equivalent. (Credit may not be obtained in both SOCI 5310 and PSYC 5310.)

SOCI 5320 The Study of Culture **3 SCH (3-0)**

Introduction to the concept of culture and its impact on our lives. Focus on methods of study and analysis, including the principal approaches to documenting and interpreting culture in both primitive and modern societies. Prerequisite: graduate standing.

SOCI 5321 Social Demography **3 SCH (3-0)**

A study of population age and sex structure; population processes such as fertility, mortality and migration and their measurements; and interactions between the human population and its larger social and cultural environment.

SOCI 5326 Seminar in Social Movements **3 SCH (3-0)**

Critical analysis of the concepts of social movements and social change in terms of their essential components; the course specifies important types of social movements, collective behavior, and group studies.

Graduate Programs

- Counseling Psychology, M.A.
- Criminology, M.S.
- General Psychology, M.A.

Planned Course Offerings

This section provides a comprehensive list of courses offered by the School of Social and Behavioral Sciences, along with a three-year schedule indicating when each course is expected to be available. Please note that course offerings and scheduling are subject to change based on faculty availability and student demand. It is recommended that students consult with their academic advisor to plan their course schedule accordingly.

Criminology (CRIM)

Marketable Skills

Texas A&M University-Kingsville is dedicated to equipping graduate and doctoral students with the advanced marketable skills necessary for professional and academic excellence beyond the university setting. These skills encompass a range of high-level interpersonal, analytical, and applied competencies that are sought after in today's competitive workforce.

Our graduate programs are structured to cultivate these capabilities through rigorous academic inquiry, experiential learning, faculty-mentored research, professional internships, and opportunities for scholarly and community engagement.

Below are the marketable skills cultivated through each of the school's graduate academic programs.

Counseling Psychology, M.A.

- Ability to apply critical thinking and problem-solving skills to complex individual, family, group, and social issues
- Ability to implement professional ethics in maintaining personal and social responsibility in a multi-cultural society
- Ability to understand and conceptualize general counseling psychology theory and practice within a scientific framework
- Ability to understand and implement the fundamentals of psychological diagnosis and clinical assessment
- Ability to understand and apply principles of group therapy, intellectual assessment, and couples counseling
- Ability to conceptualize and understand human development and wellness across the lifespan

Criminology, M.S.

- Ability to read and understand criminological research
- Social scientific writing skills
- Ability to discuss some of the current issues, theories, and dilemmas relating to criminology and/or one or more subfields within the discipline and place these phenomena in their social and historical context
- Ability to conduct social scientific research
- Understanding of methodological underpinnings of social scientific analyses

General Psychology, M.A., M.S.

- Ability to apply critical thinking and problem-solving skills to complex individual, family, group, and social issues
- Ability to implement professional ethics in maintaining personal and social responsibility in a multi-cultural society
- Ability to conceptualize and understand human development and wellness across the lifespan
