

Biochemical Engineering Minor

The department offers a transcripted minor in Biochemical Engineering. The student must complete 18 credits from the following list of courses to fulfill the requirements for this minor.

Code	Title	Semester Credit Hours
9 hours to be completed from among the following courses: ¹		
BIOL 2421	Elementary Microbiology	
CHEM 4345	Principles of Biochemistry	
CHEN 3305	Introduction to Chemical Engineering for Non-Chemical Engineering Majors	
CHEN 4311	Biochemical Engineering	
CHEN 4351	Biofuels/Biochemical Production Processes	
9 hours to be completed from among the following courses: ¹		
CHEN 4352	Bioseparations	
CHEN 4353	Bioprocesses for Waste Treatment	
CHEN 4354	Biochemical Reaction Engineering	
CHEN 4355	Frontiers in Biochemical Processes	

¹ With a grade of C or better in each.
