

College of Nursing and Health Professions

The College of Nursing and Health Professions prepares students for ethical, professional, and evidence-based practice in nursing and related health fields. Through quality instruction, clinical and applied learning experiences, and engagement with community and health care partners, the College equips students with the knowledge, skills, and judgment needed to deliver effective care in a variety of settings.

The College emphasizes academic excellence, professional responsibility, critical thinking, and service. Its programs prepare graduates to meet workforce needs, pursue licensure or certification, and contribute to the health and well-being of individuals, families, and communities.
